

Series DSS - CCWS.XX

Content Creation Workstation

Content Creation Workstations

So you want to Create and Manage Content for your Digital Signage System!

We have designed our CCWS to facilitate this process! It contains all the hardware and software needed to Edit, Create, Distribute and Manage your Digital Signage Content.

It is loaded with Infocaster's Content Creator software which is designed to eliminate all the bottlenecks that slow the workflow process down. It has a Rich Powerful Toolset to facilitate the entire process and yet is extremely easy-to-use. InfoCaster is designed to quickly create attractive multi-zone layouts for immediate digital display, Integrate crawls, rolls, animations, clocks, video and audio clips for dynamic presentations.

Is your audience wide spread? No problem, incorporate InfoCaster Network Manager to manage multiple InfoCaster systems and effectively target localized audiences. A single, centralized operator can create, edit and distribute content, saving time and resources. Content can be displayed identically on every screen, or using the InfoCaster Player, remotely customized with live information for localized audiences. The ultimate in flexibility, scalability and control ensures you'll always be able to deliver relevant, up-to-the-minute information, when and where your audience requires it.

We have also included the option of bundling the all new Adobe Create Suite Production Studio and Sorenson Squeeze to provide you will all your Creative Needs.
